To Whom It May Concern:

Mr. Jani Szabo of Renaissance Surface Design was employed by us to paint our unit at our Whistler suite at Le Chamois. During the time of his employment, Mr Szabo provided us with quality work, and we were quite pleased with the outcome of the suite. He was quick and efficient, and we were very happy with the finished results. We would definitely hire Mr. Szabo again in the future.

We wish Mr. Szabo much success in his future contracts and employment. Should you wish to contact us for further details of his employment, we can be contacted at (604) 873-4333.

Sincerely,

James and Judy Cheng

To whom it may concern,

RE: Renaissance Surface Designs

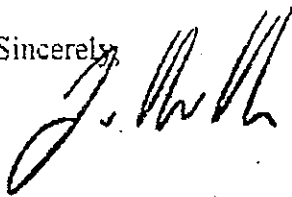

As a General Contractor for small to medium size commercial, industrial, and residential projects, I ultimately look for sub-contractors who have a solid background in what they specialize in and who will get done correctly, on time, and within my budget. Renaissance Surface Designs does just that.

I have been using Renaissance Surface Designs exclusively for all projects both interior and exterior for the past 4 years. Renaissance Surface Designs has never disappointed me.

I highly recommend Renaissance Surface Designs - for its professionalism, high quality workmanship, and competitive pricing.

If you have any further questions, please contact me at (604) 970-1617 or (604) 451-1667

Sincerely,

To Whom It May Concern,

I am very pleased to write a testimonial for Renaissance Surface Design. The scope of the work included the exterior painting of our large multi-level residential home including all trim, soffits, a balcony, garage doors and French doors and windows with over 1,000 French windows panes. The work began mid- June 2006 and ended mid-July.

We were extremely happy with the whole project. We found Jani and his crew to be very reliable, courteous, and unobtrusive. Once they started the job they worked through to the very end. It took a month and they were here every business day for the whole day with only a couple of exceptions in which he informed me of ahead of time. They were very careful not to damage our garden and the site was left clean every day.

The quality of their work is exceptional. The products they used are the best on the market for the climate conditions here in West Vancouver. As this was a very labor intensive job due to the need to tape each individual French window, we appreciated that all tape residue was removed and each window left clean.

I would not hesitate to refer them to the most discriminating customer. They are very professional, experienced, and exceptionally good at their craft.

Sincerely,

A handwritten signature in black ink, appearing to read "Susan Fraissinet". The signature is written in a cursive, flowing style with some loops and flourishes.

To Whom It May Concern:

I'm writing this letter to recommend the excellent work and service provided by Mr. Jani Szabo and his painting company Renaissance Surface Design. We found Mr. Szabo's information through his website, which includes great portfolio of his work, but it was his professional estimation, decent price quote and friendly attitude that strengthened our trust on his service. During the painting process, the attention to all details that he and his staff showed was very impressive. Also they were extremely patient and flexible for any adjustment by client's request. I had a wonderful time working with this very friendly and professional company. If you are considering any painting jobs done for your property, I strongly recommend the service by Mr. Szabo and Renaissance Surface Design.

Regards,

Helen Chiou

To whom it may concern,

As owner of Evoke International Design Inc., I am always concerned about subcontractors that general contractors hire. Renaissance Surface Designs has worked on numerous high profile restaurant projects that we have designed in the past few years, and time and time again Jani Szabo's painting company never disappoints. The pricing in relation to the high quality work in both regular brush/roll and faux-finishing, the very experienced and reliable crew, and the level of professionalism and integrity shown on each project far exceeds our expectations. We, in fact, recently opened our own restaurant, Habit Restaurant on Main Street, and hired Renaissance Surface Designs to paint it. If you want to hire a painting contractor who will get the painting project done right then we highly recommend Jani Szabo's Renaissance Surface Designs.

Please don't hesitate to contact me if you have further questions.

Sincerely,

David Nicolay

To Whom it may concern:

This letter is written with the intent of recommending Renaissance Surface Design with the highest regard in the field of interior wall finishing. I had the pleasure of working with Jani Szabo when I acquired my residential property in Coal Harbour, Vancouver.B.C. , in the fall of 2003. At that point, I was interested in creating a stunning yet cohesive surface treatment to my entrance way, which would compliment the existing palette of interior design. After having seen a number of Mr Szabo's previous projects, I arranged a consultation with him to discuss my needs. It was apparent that he understood exactly what would suite the décor, and with confidence, I left the artistic judgment in his hands. My instinct was, that his inspiration would give the best design, and he did not dissappoint! In addition to the deep copper/gold entranceway, he decided to juxtapose a very subtle pale-gold/pearl feature wall, both harmonious with each other, in a way which showcases the fine art pieces which hang on their surface. Beyond that, he chose to create another feature wall of polished black/grey slate, which adjoins the existing black granite fireplace. It resulted in giving the living room the solid anchor it needed to set off the focal painting in the room. Needless to say , I am extremely pleased with my residence, and would not hesitate in using Renaissance Surface Design again in future projects - for both faux-finishing and custom painting. They made my home the dynamic showpiece it is today!

Janos Szabor and his crew at Renaissance Surface Design is one of the best companies in Vancouver that offer a full package for surface finishing. Renaissance Surface Design offers everything from premium painting for residential and commercial to a huge portfolio of faux finishing. Janos and his crew are true professionals who have the attention to detail, experience, and the personality that make them a pleasure to work with. I am proud to recommend Janos and his team for any of your finishing needs!
